4-STROKE

Cylinder head rebuilding with porting, valve job, assembly and adjustment ____
Big bore kit ____ Size requested? ____ Re-plating to stock bore size ____

GENERAL SERVICES

Total Engine Rebuilding ____ Crankshaft Stroking ____ Crankshaft rebuilding ____
Bore/Hone iron cylinder ____

If you're getting a big bore kit, just check the boxes for big bore and powerband and fuel type choices. Big bore kits come with piston kit, gaskets, bearing, lifetime honing and powerband adjustments.

Powerband Choices

More Low to Mid-Range ____ Ideal for stadium mx, off-road, or novices.
More Mid-Range to Top End ____ Ideal for outdoor mx, intermediate to expert riders.
Mo-Betta a wider smoother powerband with less hit in the mid-range ____
Fuel Choices: Pump ____ Race ____ E85 ____

Note: Checking the Pump fuel box means that we will modify the cylinder head for lower compression, and that means less power than the maximum potential. You can still run Race fuel occasionally but you may need to adjust the jetting depending on the composition of the fuel. If you ride strictly at high altitude (over 5,000ft above sea level) Check this box ____

Discount Offers (Choose 1 if elligible)

Payment Methods

We accept bank checks, money orders, personal checks, business checks, PayPal, and UPS C.O.D. payable to Forward Motion Inc. Pre-payment with checks gives you free return ground UPS shipping in the continental US. Orders sent to Alaska, Hawaii, Puerto Rico and Guam are only charged shipping at Priority Mail prices. Military personal living outside the US get free shipping to AFO and APO PO Boxes, EVEN FOR ENGINES! Thanks for serving our country!

Check enclosed ____ Enclose a bank check, money-order, personal or business check
Return package by UPS C.O.D. ____ The UPS driver will ask for a Bank Check payable to Forward Motion Inc.

Credit Cards

We accept credit cards but only Visa and MasterCard that includes the debit cards issued by motorcycle manufacturers for contingency prize money. People paying with credit cards will be charged freight and Wisconsin residents pay 5.5% sales tax which is amortized into the service and parts prices, so you don't pay any extra. We don't accept credit card details over the telephone because of the huge

fraud problem. Also we charge your card the day your engine parts are checked into our system; no matter how long it takes to complete the work. You need to complete the form below. We use address verification so the name and address has to match the information on the front of the form for the shipping address. You can't use your granny's credit card to pay for your dirt bike rebuild!

Card Number _____

3-digit CV Code _____ Exp. Date _____

Signature _____

PayPal

PayPal is an electronic currency exchange that enables you to use your credit card with anonymity. Check it out at www.paypal.com We accept PayPal and we'll invoice you by email.

Enter your PayPal email address and we'll send you a PayPal invoice to OK.

TIPS ON PREPPING ENGINE PARTS FOR SHIPMENT

- 1) Power wash bike and engine before attempting to dismantle.
- 2) For complete engines, drain the oil and remove the spark plug and shifter.
- 3) For top end only services, follow this procedure;

Remove the seat, gas tank, and exhaust pipe, drain the coolant, remove the head stay brackets, disconnect the radiator hoses to the top end, remove the right side powervale cover, disconnect the powervale actuating rod and don't dismantle the powervale system. Remove the 4 nuts holding the cylinder to the crankcases; use a plastic mallet to rock the cylinder from side-to-side to un-stick the cylinder from the case-pins. Put the top end assembly in a plastic bag so it doesn't leak spooge through the box. You're welcome to send your old piston for free analysis.

Instructions on How to Ship Top Ends and Engines

For individual top end parts, send the complete cylinder, head, and powervales all bolted together. Place it in a plastic bag so it doesn't leak through the box. Use a 10x10x10 inch box and plenty of tightly packed paper or Styrofoam peanuts.

For Yamaha YZ and Suzuki RM models for Supermini or 144 conversions, send the whole engine. Double-box the engine with at least a few inches of packing material between the engine and box and the inner box and the outer box. If you choose UPS, save the tracking number so you can track your package to see when it arrives. All orders are checked into the system in the week they arrive and turnaround time varies based on seasonality. You can send your parts by any freight carrier; take care to insure the parts for their value.
